

## English

Our text this half term is called 'Storm' by Kevin Crossley-Holland. We will be making predictions, inferences and retrieving information.

We will be studying the key features of newspapers to support us in writing our own reports, using the grammar and punctuation linked to these such as indirect and direct speech. We will be using all our skills learnt over the year to develop setting and characters in our own narratives and write in role.

## Maths

In maths we will:

- Identify, compare and order angles.
- Explore triangles and quadrilaterals.
- Identify properties of polygons.
- Identify lines of symmetry. |
- Interpret charts and line graphs.
- Solve comparison, sum and difference problems
- Draw line graphs.
- Describe position and plot coordinates.
- Describe and make translations.

## History

This half term we will be learning about Ancient Greece. We will learn about everyday life in Ancient Greece and how their lives have influenced us today. We will undertake research about the Ancient Greeks and create a historical report with our new-found knowledge.

## PSHCE

Our topic this term is 'Changing me'. We will be exploring the changes our body goes through and how we feel about these changes. We will also be learning to understand that we get characteristics from both parents and this makes us unique and special. We will look at how we are feeling moving up to year 5.

# Summer 2 Year 4

## RE- Do people need to go to church to show they are Christian?

The children will explore how Christians show commitment to God and a discussion will be had for the children to think about whether or not all Christians should go to church to show their respect.

## Science

We will be exploring and research types of habitats. We will explore how animals can be characterised to help us create our own classification keys. We will explore adaptation in different species.

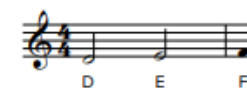

## PE

In PE this half term, we will be swimming on a Tuesday morning. The children will need to bring their swimming kits each week. Within these lessons, the children will be learning about water safety and also increase their confidence with completing different swimming strokes.

## Music

To understand how music can teach us about different communities and we will continue our recorder lessons with Warwickshire Music.

## Spanish

We will be learning how to describe the weather and ask what the weather will be. Name ice cream flavours and label and design and ice cream using Spanish.

## Design Technology

In Design Technology, we will be using CAD to design and make a net which can be assembled to hold a product inside. The children will also build upon their skills of planning and evaluating too.

## Computing

Learning to understand how digital devices/software can be used to compose and create music.

We will be exploring different elements of music through the medium of technology.
